SUBJECTS AND TITLES

A

Acrylic cement, for stabilization of cervical spine
in posterior spine, 241
in tumors, 15

Adolescence, idiopathic scoliosis in, 176

Adult diastematomyelia, Sarwar M, Kelly PJ, 60

Ankylosing spinal hyperostosis, 126

Anterior cervical fusions for spondylotic myelopathy: A preliminary report, Concha S, McQueen JD, 147

B

Biomechanics
in scoliosis, 239
of spondylolysis, 202
and testing of surgical specimen after methylmethacrylate fixation, 241

Bleeding from bone sites, and hemostasis with microfibrillar collagen, 313

Blood vessel lesions, in cervical spondylotic myelopathy, 93, 100

Bone tumor
giant-cell, total spondylectomy in, 197

simulating lumbar disc syndrome, 65
Brachial plexus palsy and isolated deltoid muscle paralysis as positional complication of anterior cervical fusion, Pezeshki C, Brooker AF, Riley LH Jr, 248
Burst fractures, unstable, 261

C
Cauda equina, intermittent compression of, 75
Central nervous system, role in scoliosis, 178
Cervical cord compression secondary to acute disc protrusion in trauma: Incidence and response to decompression, Raynor RB, 39
Cervical myelopathy secondary to multiple spondylotic protrusions: A clinicopathologic study, Ono K, Ota H, Tada K, Yamamoto T, 109
Cervical spine
anterior fusion
brachial plexus palsy after, 248
in spondylotic myelopathy, 89, 139, 147, 151, 325
Research Society
project with methyl methacrylate stabilization of cervical spine, 15
symposium of, 87
spondylotic myelopathy of. *See* Myelopathy
stabilization with methylmethacrylate
in posterior spine, 241
in tumors, 15
trauma of
and complications of anterior spondylodesis, 25
and compression from disc protrusion, 39
myelography in, 173
sexual dysfunction from, 83
tomography in, 163
Cervical spine tomography in trauma, Binet EF, Moro JJ, Marangola JP, Hodge CJ, 163
Cervical spondylosis with moderate to severe myelopathy: A report of seventeen cases treated by Robinson anterior cervical discectomy and fusion, Bohlman HH, 151
Cervical spondylotic myelopathy: Etiology and treatment concepts, Robinson RA, Afeiche N, Dunn EJ, Northrup BE, 89
Chemonucleolysis, in treatment of herniated discs, 231, 233, 237
Chymopapain, in treatment of herniated discs, 231, 233, 237
Cloward procedure, in cervical spondylotic myelopathy, 325
Collagen
metabolism in scoliosis, 178
microfibrillar, hemostasis with, 313
Complications of anterior spondylodesis for traumatic lesions of the cervical spine, Kewalramani LS, Riggins RS, 25
Compression
cauda equina, intermittent, 75
cervical
from disc protrusion in trauma, 39
and spondylotic myelopathy, 100, 109
Compressive strength characteristics of the human vertebral centrum, Kazarian L, Graves GA, 1

D
Debate: Scoliosis: Affirmative, Hall J; Negative, Nachemson A, 318
Decompression
anterior, in unstable thoracolumbar fractures, 82
in disc protrusion from cervical trauma, 39
in intermittent cauda equina compression, 75
one-stage decompression–stabilization in thoracolumbar fractures, 53
in ossification of posterior longitudinal ligament, 126
in thoracic spine fractures, 185
Deltoid muscle paralysis, after anterior cervical fusion, 248
Demyelination, in cervical spondylotic myelopathy, 109
Dentate ligaments, section in cervical spondylotic myelopathy, 90
Diagnostic accuracy of lumbar discography, Hudgins WR, 305
Diastematomyelia, in adults, 60
Disc lesions
and cervical spondylotic myelopathy, 109
chemonucleolysis in, 231, 233, 237
and measurement of disc space height, 282
simulation by bone tumors, 65
thoracic, anterior approach to, 266
traumatic, cervical cord compression from, 39
Discase, in disc disease, compared to placebo, 233
Discectomy, anterior cervical, in spondylotic myelopathy, 325
Discography
in cervical compression from traumatic disc protrusion, 39
lumbar, diagnostic accuracy of, 305
Distractor, force-measuring, with Harrington instrumentation, 57, 325
The double blind study comparing discase to placebo: An editorial comment, Brown MD, Daroff RB, 233

E
Electromyographic studies of trunk muscles, with special reference to the functional anatomy of the lumbar spine, Örtengren R, Andersson GBJ, 44
Electromyography
in brachial plexus palsy after anterior cervical fusion, 248
of paraspinal muscles, postoperative, 294
after facet rhizotomy, 299
in scoliosis, 178
of trunk musculature, 44
Electron microscopy, of spinal muscles in scoliosis, 251
Equilibrium dysfunction, in scoliosis, 179
Erector spinae muscle, ultrastructural changes in scoliosis, 251
Etiologic factors in adolescent idiopathic scoliosis, Nachemson AL, Sahlstrand T, 176

F
Fatigue fracture, and spondylolysis, 202
Force-measuring distractor for Harrington rod placement in scoliosis surgery, McNeill TW, Tylkowski CM, Taddonio R, Donaldson D, Ray RD, 57

Fracture
fatigue, and spondylolysis, 202
of thoracic spine
stabilization of, 185
unstable burst fractures, 261
thoracolumbar
one-stage decompression–stabilization in, 53
unstable, 82
Fusion
cervical anterior
brachial plexus palsy after, 248
and complications of spondylodesis in trauma, 25
in spondylotic myelopathy, 89, 139, 147, 151, 325
in thoracic spine fractures, 185

G
Genetics, and idiopathic scoliosis, 176
Growth, role in scoliosis, 177

H
Halo traction, in unstable spinal injury, 261
Harrington instrumentation
force-measuring distractor with, in scoliosis, 57, 325
in thoracic spine fractures, 185
in thoracolumbar fractures, 53, 82
in unstable spinal injury, 82, 261
Hemostasis in human iliac crest donor sites with microfibrillar collagen, Craig CC, Asher MA, 313
Hereditary factors, in idiopathic scoliosis, 176
Hyperostosis, spinal, ankylosing, 126

I
The incidence of denervation of the sacrospinales muscles following spinal surgery, MacNab I, Godfrey CM, Cuthberth, 294
Intermittent cauda equina compression syndrome: Its recognition and treatment, Dyck P, Pheasant HC, Doyle JB, Rieder JI, 75
Intertransversus muscle, ultrastructural changes in scoliosis, 251
Is spondylolysis a fatigue fracture?, Hutton WC, Stott JRR, Cyron BM, 202
Ischemia, spinal cord, in cervical spondylotic myelopathy, 93, 100

K
Kinesiology, of trunk musculature, 44

L
Laminectomy
in adult diastematomyelia, 60
in cervical spondylotic myelopathy, 89, 139
in intermittent cauda equina compression, 75
Letters, 82, 231, 325
Long-term followup of surgical treatment of cervical spondylotic myelopathy, Crandall PH, Gregorius FK, 139
Longitudinal ligament, posterior, ossified, 126
Low-back pain
in adult diastematomyelia, 60
in bone tumors simulating lumbar disc syndrome, 65
and chemonucleolysis in disc herniations, 231, 233, 237
graduated spinal block in, compared to MMPI, 210
in intermittent cauda equina syndrome, 75
and interpretation of lumbar myelograms, 214
and measurement of disc space height, 282
and MMPI for psychologic evaluation of patients, 84, 210
referred, facet rhizotomy in, 299
in scoliosis from lumbar osteoblastoma, 276
in spondylolysis, 202
Lumbar spinal cord meningioma: Case report, Jacques S, Garner JT, 310
Lumbar spine
biplanar roentgenography of, 287
denervation of paraspinal muscles after surgery, 294
diagnostic accuracy of discography, 305
disc syndrome simulation by bone tumors, 65
functional anatomy of, and trunk muscle biomechanics, 44
measurement of disc space height in, 282
mechanics of, 202
meningioma of, 310
myelography technique, 214
osteoblastoma of, scoliosis from, 276
pain in. *See* Low-back pain

M
Measurement of intervertebral disc space height, Pope MH, Hanley EN, Matteri RE, Wilder DG, Frymoyer JW, 282
Meningioma, of lumbar spine, 310
Metastatic disease, and cervical spine stabilization with methyl methacrylate, 15
Methylmethacrylate, for stabilization of cervical spine
in posterior spine, 241
in tumors, 15
Minnesota Multiphasic Personality Inventory
in low-back pain, compared to graduated spinal block technique, 210
with pain drawing, in evaluation of low-back pain, 84
Monitoring, spinal cord, in unstable spinal injury, 261
Musculature
electromyography of. *See* Electromyography
role in scoliosis, 178
spinal, ultrastructural changes in scoliosis, 251
Myelography
in adult diastematomyelia, 60
air, in cervical spondylotic myelopathy, 139
Pantopaque
in cervical cord injuries, 173
lumbar, technique and interpretation of, 214
Myelography during craniocervical traction in the early management of acute cervical spinal cord injuries, Locke GE, Biggers SL, Holly JJ, Delgado J, 173
Myelopathy, cervical spondylotic

anterior cervical fusion in, 89, 141, 147, 151, 325
Cloward procedure in, 325
etiology and treatment concepts in, 89
ischemia in pathogenesis of, 100
long-term followup of surgery in, 139
with multiple protrusions, 109
and ossified posterior longitudinal ligament, 126
Robinson procedure in, 151, 325
Myoelectric studies. *See* Electromyography

N
Neural arch, strength of, 207

O
One-stage decompression–stabilization for thoracolumbar fractures, Erickson DL, Leider LL, Brown WE, 53
Ossified posterior longitudinal ligament: A clinicopathologic study, Ono K, Ota H, Tada K, Hamada H, Takaoka K, 126
